Date _____ Signature _____

Important:

The transport cost to your delivery address will be calculated after we have received the address. The amount will be included in the invoice.

The shipping company will unload the crate on the pavement or at the point up to which the lorry can drive to. It's not their mission to carry the box or parts of the equipment inside the building or to unscrew the crate or dispose of it.

Other services, such as carrying the equipment to a special place, have to be paid to the shipping company directly, as this service requires extra persons.
